ARYAN SUTARIYA

Web Developer | Computer Engineering Student | Profile

aryansutariya005@gmail.com | linkedin.com/in/aryan-sutariya | github.com/Aryan-Sutariya | Surat, Gujarat, India

PROFESSIONAL SUMMARY

Detail-oriented Computer Engineering student skilled in developing performant, native-feeling mobile applications using React Native and JavaScript. Experienced in engineering modular architecture, consuming RESTful APIs, and deploying mobile solutions. Seeking an internship or entry-level React Native Developer role to contribute to high-impact mobile projects.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, C.
Front-End: React.js, HTML5, CSS3, Tailwind CSS, Vite.
Back-End & Database: PHP, MySQL, phpMyAdmin, XAMPP.
APIs & Integrations: RESTful APIs, TMDB API.
Developer Tools: Git, GitHub, VS Code, Netlify, Vercel.
Core Concepts: Responsive Design, Component-Based Architecture, Agile Workflow.

EDUCATION

B.Tech — Computer Engineering *2022 – 2026*
Sarvajanik College of Engineering & Technology (SCET), Surat, Gujarat ***CPI: 8.97 / 10***

- Consistently maintained high academic performance while delivering industry-standard web development projects.
- Participated in Open-Ended Problem (OEP) initiatives, SSIP Cell events, and national-level hackathons.

Higher Secondary Certificate (HSC) — Science Stream *2021 – 2022*
Ashadeep IIT, Gujarat ***Percentage: 87.3%***

PROJECTS

Niramay Ayurvedic Clinik — Full Stack Web Application **Live Demo**
Tech Stack: React.js, Node.js, PostgreSQL, Vercel, Render

- Developed a full-stack appointment booking system for an Ayurvedic clinic, featuring real-time slot availability, WhatsApp-based booking confirmation, and an admin dashboard for appointment management.
- Implemented GSAP animations with scroll-triggered reverse transitions, a custom WhatsApp chat widget, and patient feedback system with live reviews on the landing page.
- Built key admin features including earnings analytics with interactive charts (Recharts), slot blocking, manual appointment entry, payment status tracking (deposit/full), and automated cancellation workflows with refund management.

Movie App — Real-Time Movie Discovery Platform **Live Demo**

Tech Stack: React.js, Vite, Tailwind CSS, TMDB RESTful API, Netlify

- Built a fully responsive movie discovery app that asynchronously fetches, parses, and renders live movie metadata and media assets via the TMDB RESTful API.
- Implemented client-side routing and optimized state management, achieving fast page transitions and minimal re-renders for improved user experience.
- Utilized Vite for blazing-fast build performance and Tailwind CSS for a pixel-perfect, custom responsive design.

Mono Theme Clone — Full-Stack E-Commerce Platform **Live Demo**

Tech Stack: React.js, Vite, PHP, MySQL, phpMyAdmin, XAMPP, Netlify

- Engineered a high-fidelity Shopify e-commerce theme clone with fully responsive layouts matching original design specifications across all screen sizes.
- Built reusable, modular UI components (Product Cards, Navigation Bar, Modals) adhering to component-based architecture principles for scalability and maintainability.
- Integrated a PHP/MySQL back-end for secure user authentication and persistent shopping cart data management via phpMyAdmin and XAMPP.

AayuBot — Smart Healthcare Assistant **Live Demo**

Tech Stack: JavaScript, Netlify

- Designed and deployed healthcare search engine providing medicine details by searching the name of medicine reducing barriers to basic health information.
- Optimized application for low-latency responses and mobile-first accessibility using Netlify hosting.

CERTIFICATIONS

SAP Code Unnati Certification *Edunet Foundation & SAP*

- Completed advanced training in Python, Data Analysis, Artificial Intelligence, and SAP Conversational AI Chatbot development.

ACHIEVEMENTS & ACTIVITIES

Certificate of Merit, R&D Cell — SCET (2024–2025)

- Awarded for outstanding development of AayuBot: The Smart Healthcare Assistant under the Open-Ended Problem initiative.

Top 50 Finalist — Limitless Hackathon, Mercer | Mettl (National Level)

- Ranked in the Top 50 teams nationally, demonstrating rapid prototyping, teamwork, and problem-solving under pressure.

University-Level Idea Pitching — SSIP Cell, Sarvajanik University (2024)

- Selected to pitch innovative startup concepts, showcasing entrepreneurial thinking and clear technical communication.
